# Who was the Man in the Iron Mask?

THE identity of this mysterious and lonely figure standing on the ramparts of a castle on an island off the coast of France has excited the most intense interest for nearly three hundred years. His punishment was unique; it still arouses a feeling of terror. What could have been the career which he exchanged for a life silent as the grave? What could he have done? Who can he have been? What was his past? Was it the dissolute life of a courtier? Or the devious ways of an intriguing diplomat? Or had some fair one within the hallowed circle of royalty loved not wisely but too well? Why during all these years has his identity remained the greatest of all mysteries?

## THERE HAVE BEEN MANY SURMISES

We have contemporary guesses, such as that he was a second son of Cromwell or the Duc de Beaufort. Then Voltaire came to the conclusion that the prisoner was a twin or even elder brother of Louis XIV, a true heir to the crown hidden from the time of his birth. Others think that he was the eldest illegitimate son of Charles II who mysteriously disappeared; or that he was the true Duke of Monmouth saved from execution by substitution; or even that he, and not Louis XIII, was the actual father of Louis XIV who was born after twenty-three years of wedded life. Some have thought that he was the son of the Duke of Buckingham and the Queen of France; others, that he was the son of Louis XIV and De la Vallière.

## NO MAN DARED REVEAL THE SECRET

The veil is not easily lifted. To have revealed the secret would have cost anyone who knew it his life. The regent is said to have admitted when drunk that the prisoner was a son of Anne of Austria and Mazarin. Louis XV may have known, but it is recorded that he refused to tell Madame de Pompadour. Madame Campan in her memoirs states that Louis XVI did not know the secret. De Chamillart, the last person who could have had personal knowledge, on his deathbed declined to reveal the man's identity. A doctor who had seen the prisoner's tongue and felt his pulse declared that he spoke with an English accent.

## ALWAYS MASKED—HIS FACE HIS SECRET

In August, 1669, there was hurried across France, in a closely guarded litter, a masked man

whose identity was shrouded in mystery. Never has any prisoner been guarded with such extraordinary vigilance and with such fear of his story becoming known. There must have been the strongest reasons for this secrecy for he was taken to the most distant fortress of France, and then to an island where he was immured in a prison within a prison. The governor of the fortress, for greater safety, always carried his food to him with his own hands; a confessor saw him but once a year, but no other visitor ever laid eyes on him. *He was always masked—apparently his face alone would tell his secret.*

## ALL STOOD BAREHEADED BEFORE HIM

He was always well treated; was supplied with fine clothing, books, and always served from silver dishes. The governor stood before him uncovered, and some accounts state that he addressed him as *Mon prince*; others, that he used *Monsieur*. When the prisoner wrote messages on his white linen he was afterwards supplied only with black.

## WHAT HAD BEEN HIS CRIME?

He is not, as some think, a myth; incredible and impossible as all this may seem it is nevertheless proven by documentary evidence discovered after the French Revolution had laid bare the letters between Louvois, the minister, and Saint-Mars, the governor of the prison-fortress. The letters referring to the man in the mask are all written in veiled language; never once is he ever given a name in the official correspondence. No letter mentions what his crime had been or even whether he had ever committed any crime.

## LONG AGONY ENDED ONLY IN THE GRAVE

The long agony of this horrible punishment was over when, in November, 1703, the most mysterious of all prisoners suddenly died. He was stealthily laid at rest in the dead of night, with destructive chemicals in his shroud, under a false name, and even given a false age.

## SECRECY EVEN AFTER DEATH

The precautions to ensure secrecy did not end even then. The room he had occupied was carefully painted over so that any message he might have written would be covered up, and every article he had used was destroyed lest any clue might be left. Thus vanished completely a man whose name and identity was unknown even to his gaoler—some think even to the prisoner himself.

## WHY WAS HIS LIFE PRESERVED?

This prolonged punishment, and the unprecedented precautions for secrecy continued after death, arouses not only a feeling of compassion and curiosity, but also of terror. Why all this secrecy? What crime, if any, did this man, evidently of exalted rank, commit that he should be buried alive for life? Why did the king preserve his life? Why did he not have him put to death on some trumped up charge? What momentous secret could have caused this man to be sacrificed for the well-being of a monarch? The subject becomes more mysterious as we investigate.

## LONG BURIED RECORDS DISCOVERED

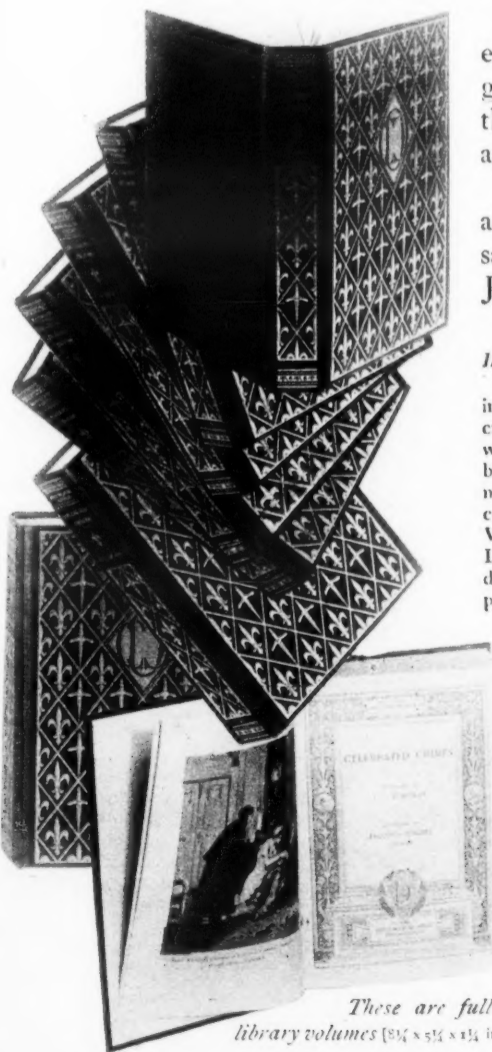

The mystery has always impressed the imagination and excited speculation. With the nineteenth century came an opportunity to thoroughly search long-buried records. Dumas investigated scientifically and seems to have discovered the clue to the truth. He tells the whole story in one of the volumes of the strangest and most curious set of books ever published, which he called

"Fascinating History."  
The New York Herald.

## Celebrated Crimes of History

"This most important work."  
The New York Times.

NEVER BEFORE COMPLETELY TRANSLATED INTO ENGLISH

They form a collection of stories of the most sensational crimes; crimes prompted by illicit love, envy, ambition, religion—stories of poison plots, abduction, treachery, intrigue, and conspiracies, gleaned from hidden archives. We pass through secret passages, see stealthy lurking figures and the gleam of the assassin's blade; we hear the muffled moan, the splash, hurried footsteps—but to appreciate these books you must see the books themselves, look through them, and read them.

The millions of admirers of the works of Dumas will hail with keen delight this, the *first* and absolutely the *only* complete and unabridged translation of this astonishing series. Printed from the same plates as the *edition de luxe*, sold at \$100.00 a set, the edition offered our patrons is illustrated by Jacques Wagrez of Paris and beautifully bound in cloth, stamped with emblematic design in gold.

*None of the editions of Dumas contain these stories; and no set of Dumas is complete without them.*

### INTRIGUES OF A LICENTIOUS COURT

In one of the volumes Dumas brilliantly works into a vivid picture of the Dark Ages the vices and crimes of that extraordinary family, the Borgias, which furnished a Pope of Rome and some of the blackest pages in history. Here we see the whole murderous, poisonous crew with their greedy craving for debauchery, flattery, titles, and gold. We watch the career of the beautiful but depraved Lucrezia, a Messalina with the features of a Madonna. We see the intrigues of the mediæval papal court—the murders, abductions, poisonings—drawn from the chronicles of eyewitnesses, those naive accounts which, without embarrassment, call a spade a spade.

### NOTHING IN THE WORLD LIKE THEM

"Great crimes have played so large a part in the world's history that one cannot obtain a thorough knowledge of past times without the aid of such a book as this," says *The New York Herald*, when reviewing this series. The lover of history is enraptured with the wealth of facts brought to bear by Dumas upon the life of the beautiful but indiscreet Mary Stuart as Queen of France and Scotland. Read the story of her amours, and of her barbarous imprisonment and murderous execution, which constitute one of the greatest crimes of history, told as Dumas

alone can tell it. There is no other work like this. Nowhere else can you get so intimate a view of the men and women whose misdeeds in every quarter of Europe, from Russia to Spain, from Turkey to Scotland, have contributed so much of tragedy to the romantic portion of the history of the Old World. And every word is just as Dumas wrote it.

### DUMAS' MASTERPIECE

Think of a fascinating series—of which only the highly privileged few heretofore have had any knowledge—by your favorite author, witty, brilliant, big-hearted Alexandre Dumas, who gave you your first *real* taste for European history while following the adventures of D'Artagnan in *The Three Musketeers*.

## DR. ELIOT'S FIVE-FOOT SHELF OF BOOKS

(The Harvard Classics)

## Like a Conquering Army THESE BOOKS have marched triumphant through the centuries

THE LIBRARIES of the old world and the new are crammed with volumes, shelf on shelf, which a thousand men in a thousand lifetimes could never find time to read. And millions more volumes have passed forever into oblivion, not even to find shelter in the archives of public libraries.

Yet *these* books have come thundering down through the centuries, influencing, teaching and delighting mankind with their indomitable power. They are as new and invigorating as when their immortal authors instilled in them the breath of eternal life.

Emerson once said: "Would that some charitable soul, after losing a great deal of time among the false books, and alighting upon the few true ones which made him happy and wise, would name those which have been bridges or ships to carry him over the dark morasses and barren oceans, into sacred cities, into palaces and temples."

It was one of the monumental achievements of America's greatest educator, Dr. Charles W. Eliot, to bring together the truly great books, to sift the pure gold from the mass of writings the ages have produced. For forty years President of Harvard University, Dr. Eliot realized the need

of a library offering everyone the culture which a university strives to give.

The Five-Foot Shelf (Harvard Classics) is the magnificent result of his inspiration and knowledge. These books are the criterion of all literary selection. Through them people have found that the classics are not dull—but intensely stirring; not beautiful antiques, but lively, stimulating modern thought with vital application to everyday life.

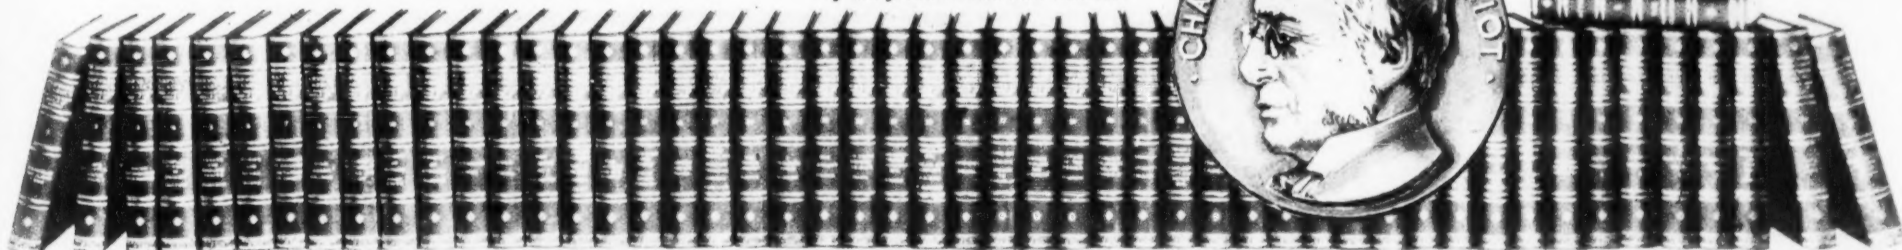

In this wonderful library are the writings of 302 immortal authors.

The busy man and woman of today need not stumble through hopeless masses of reading matter, for in the Harvard Classics are the books that live forever, the books that have as proud possessors more than a quarter of a million intelligent, ambitious families.

These books stand for stimulation of thought, and, above all, endless enjoyment. They are the books which have won for themselves the well-deserved tribute, "A liberal education in fifteen minutes a day."

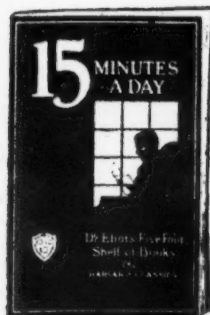

P. F. Collier and Son Company has published good books since 1875. By the famous Collier plan, you can pay for these books while you are reading and enjoying them.

CHARLES W. ELIOT, forty years  
President of Harvard University, Editor  
of the famous Harvard Classics.

## Spain

WHAT a treat awaits you, for Spain is a fascinating country... a land unlike any of your imaginings... a jewel of many facets, where each visitor finds new delights, new riches for himself alone.

Everywhere there are surprises and thrills... the constant contrasts of old and new, primitive and modern... and always, like a solemn diapason, the rich echoes of medieval grandeur.

Travel in Spain is easy, comfortable, modern. Sleeping car trains are plentiful. Motor roads are among the finest on the continent. (You can hire a car and drive it yourself with your American license.) There are marvelous and luxurious hotels, and good moderate-priced inns. Spain welcomes you... make it the gateway to the continent on your next trip!

### Spanish Tourist Information Office

695 Fifth Avenue, New York

For information about Spain and Spanish travel... the places to go... the things to see... where to stop... for help in getting the most out of your visit please feel free to consult Spanish Tourist Information Office, 695 Fifth Avenue, New York. (There is no charge... we render service only).

Spain is easy of access from the continent by rail, water, air, and motor—or over the smooth southern course by luxurious Spanish Royal Mail Lines. ## From BYRD in ANTARCTICA news comes by radio 9,373.28 miles to The New York Times.

Commander Byrd and Russell Owen (Times correspondent with the expedition for South Polar exploration) are in constant communication with The New York Times radio station from the base in Ross Sea. It requires but 1/20 of a second for the radio signals to cover the intervening miles.

Malcolm P. Hanson, Chief Radio Operator with the Byrd Expedition, to whom the 1929 medal of the Veteran Wireless Operators' Association was presented for distinguished service, writes:

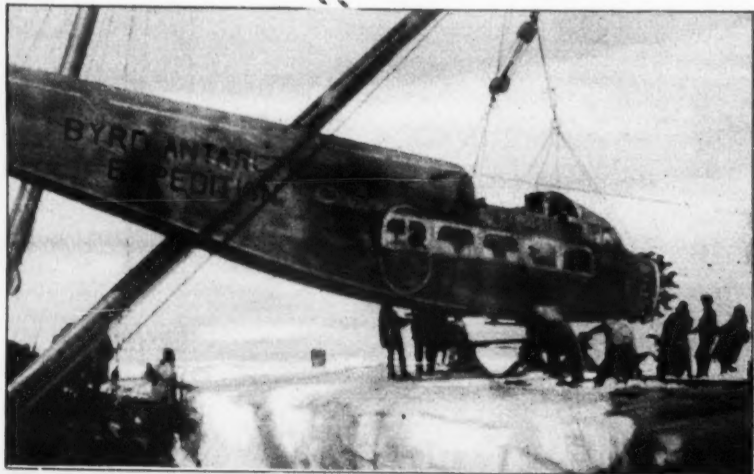

" \* \* \* Radio places New York within one-twentieth second of our fingertips and brings the sound waves from many concerts and speeches to our ears even before they reach a good part of the audience itself. Great, indeed, is our debt to radio development. \* \* Our daily communication schedules with the expedition's contingent at Dunedin, New

Zealand, and with The New York Times and other stations in the States are seldom interrupted. \* \* Two or three times daily news bulletins issuing from our radio room give us news from The New York Times and other press items. \* \* "

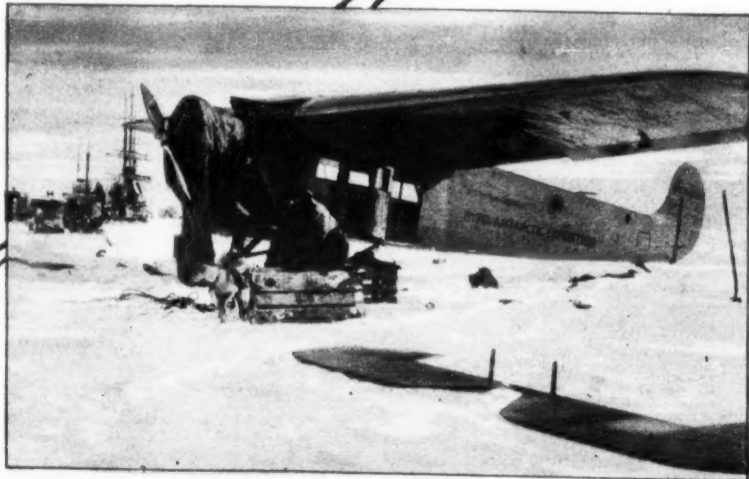

Thus the men, isolated over 2,000 miles from the nearest human habitation, send and receive news in the snow-and-ice-locked region which is to be their habitat for two years or more.

The New York Times is the only New York newspaper publishing the personal accounts of Commander Byrd and Russell Owen. The four months' night of Winter is over. Aerial exploration which has been planned may soon be undertaken.

Be sure to read The New York Times every day so as not to miss a chapter.
